

VILLA VICTORIA ACADEMY
2020 Honors Algebra I Summer Packet

To An Incoming Honors Algebra I Student,

Attached is the summer packet requirement for passage into the Algebra I program. Retention of material is essential to success and this review work should enable you to enhance your performance in Algebra I by reinforcing the concepts learned in the previous Pre Algebra course.

Please follow these directions very carefully.

Go to the Villa website under current families to access the summer packet, since it is the centralized location for all summer assignments.

- 1) Print the answer sheet.** (To print the questions is your choice.)
- 2) Downloaded and printed the necessary pages from the summer packet. If you have any difficulty with this process, contact the upper school office to obtain a paper copy.**
- 3) Complete this work over the summer on loose leaf and attach it to the packet.** Remember, the process is equally as important as the solution.
- 4) Also, be sure to use the answer sheet for answers only,** since there is insufficient room to show your process on the answer sheet.
- 5) If any problem is unclear to you, after you have exhausted all your resources, attach a note to that problem,** indicating what aspect of it was puzzling.
- 6) Do not guess at the answers. Access your old notebooks** or other materials that you may have on hand. It is permissible to work with a partner as long as both students are benefiting from the interaction.

All work and answer sheets will be due the first day of class.

Since this packet will be your **first grade** toward the first marking period, it is important that it is completed to the best of your ability and **submitted on time.**

Hopefully through this assignment, you will feel more comfortable and confident entering into the rigors of Honors Algebra I.

Be sure to enjoy your summer break and best wishes for your success in the fall semester.

Sincerely,

Mrs. Ann Conway-Konzelman
