

**VILLA VICTORIA ACADEMY**  
**2020 Honors Pre-Calculus Summer Packet**

To An Incoming Honors Pre-Calculus Student,  
Attached is the summer packet requirement for passage into the Honors Pre-Calculus program. Retention of material is essential to success and this review work should enable you to enhance your performance in Honors Pre-Calculus by reinforcing the concepts learned in the previous Honors Algebra II course.

**Please follow these directions very carefully.**

Go to <http://vva-ck.weebly.com> to access the summer packet or go to the centralized location for all the summer assignments.

- 1) **Print the answer sheet.** (To print the questions is your choice.)
  
- 2) **After you have downloaded and printed the necessary pages from the summer packet, you must email your instructor at the following email address to inform her that you have been successful.** [aconway@villavictoria.org](mailto:aconway@villavictoria.org) Feel free to email this address of any concerns during this process.
  
- 3) **Complete this work over the summer on loose leaf and attach it to the packet.** Remember, the process is equally as important as the solution.
  
- 4) Also, be sure **to use the answer sheet for answers only**, since there is insufficient room to show your process on the answer sheet.
  
- 5) If any problem is unclear to you, after you have exhausted all your resources, attach **a note to that problem**, indicating what aspect of it was puzzling.
  
- 6) **Do not guess at the answers. Access your old notebooks** or other materials that you may have on hand. It is permissible to work with a partner as long as both students are benefiting from the interaction.

Since this packet will be your **first grade** toward the first marking period, it is important that it is completed to the best of your ability and **submitted on time**.

Hopefully through this assignment, you will feel more comfortable and confident entering into the rigors of the Honors Pre-Calculus. Be sure to enjoy your summer break and best wishes for your success in the fall semester.

Sincerely,

Mrs. Ann Conway-Konzelman
